

MVHS STEM Fair Student Checklist

Before Fair

- Look over the rubric and understand the expectation of displaying your project and interview/presentation
- Complete your research/invention/project before the day of the Fair
- Purchase a tri-fold poster
- Organize and Plan the experiment
- Keep track of data
- Do more than one trial/build or refine prototype, if possible
- Analyze the results
- Make conclusions
- Purchase a tri-fold poster
- Create Display board to showcase your experimental/design/project
- Design your presentation (that will be given to the judges)
- Practice your presentation
- Ask questions to ____ or ____.

Day of Fair

- Get good rest and eat a good breakfast
- Pack a lunch and water
- Arrive to MVHS and get your table assignment and interview line number.
- Go to your table set up your project display. Set up your tri-fold poster, set up any props or parts of your experiment/design. Have a computer if needing to showcase code, or other elements of your project
- Walk around and look at other projects. Also, when not looking at other projects, stay at your table for folks to look at your project and ask questions.
- When your time, present your project to the judges and be ready to answer any questions they have
